DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 22-25, filed 02 February 2009, with respect to Claims 1-30 have been fully considered and are persuasive. The rejection of claims 1-30 has been withdrawn.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 31-67 directed to inventions non-elected without traverse. Accordingly, claims 31-67 have been cancelled.

Allowable Subject Matter

3. Claims 1-30 are allowed.

4. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of Claims 1-16 is the Claim 1 limitation for a lens position calculator that determines a position by performing addition or subtraction on a reference position stored in a reference position storage as a judgment position and judges whether that value reaches a threshold value so as to determine the reference position again, in combination with all other claim limitations in total.

The prior art of record, Nishiyama, does not teach or suggest this combination of features. Nishiyama teaches an arithmetic circuit which teaches a comparison of

evaluation values rather than a judgment position obtained by performing addition or subtraction on a reference position. Additionally, the controller taught by Nishiyama judges whether the evaluation value is maximum while the focusing motor is driven. This renders the entire driving range of the focusing motor as the judgment position, which in turn renders the lens position calculator useless. Therefore, Nishiyama cannot anticipate the limitations of the instant Claim 1

Claims 17-30 are allowed for substantially the same reasons as discussed supra with respect to claims 1-16. Claim 17 additionally requires the limitation that the judgment position has the same phase as a phase of the reference position, which is neither taught nor suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
